

# FEDEX SHIPMENT TIPS

- Perishable Items
  - Recommended not to ship after Thursday since the item may sit over the weekend. FedEx does not have refrigerators or freezers available to store your package.
- Liquids
  - Must be in a container with a tightly fitted cap, wrapped in absorbent material and placed in a sealed plastic bag. This bag must then be wrapped in additional absorbent material and sealed in a second plastic bag.
- Hazardous Materials
  - A [Hazardous Material Information Sheet](#) must be completed and submitted to the business office with the completed Shipping Memo.
- Export Shipments
  - Exported items, other than documents, require the [UC Davis Customs Form](#) be completed.
- Limited supply of packing peanuts available in 1141 RMI North for shipping purposes.
